my twinn Doll Care Tips

the just-like-me doll™

SKIN

My Twinn doll heads and limbs are made of the highest-quality vinyl. Vinyl may discolor, soften or crack due to prolonged exposure in the sun. Avoid leaving your doll in a sunny spot for long periods of time. Most marks, smudges or dirt can be cleaned from the vinyl with baby wipes. Marker or pen ink cannot be removed from the doll.

BODY

My Twinn doll bodies are fabric and should not be immersed in water. If the doll's body becomes wet, remove doll's clothing and allow cloth body and vinyl to air dry.

EYES

Your doll's eyes are the best in the world, created to look realistic, with eyelashes individually cut and fit to each eye. Such high quality and lifelike features are not possible with doll eyes that open and close. Protect the eyelashes from heat, pulling or rubbing. Please do not try to glue the eyelashes on yourself; our Doll Hospital staff can professionally glue them on for a nominal fee.

HAIR

My Twinn uses the finest-quality wigs available. To style your doll's hair, we suggest using only My Twinn hair products. Because children's hair contains natural oils that can damage the doll's hair, do not use a doll hairbrush for your child's hair or a child's hairbrush for the doll's hair. You may use a hair pick on curly hair when it is wet, and the hair will resume its natural curl when it dries. Your doll's hair can be carefully washed using a baby shampoo.

Avoid immersing the doll's face and body in water. If necessary, the hair can be dried with a blow dryer using the dryer's lowest setting. Anything hotter than the lowest setting will burn the doll's hair and eyelashes. Cover the doll's eyes when using a blow dryer, as the eyelashes singe easily. Hair can be curled with a curling iron on the lowest setting. Anything hotter will burn the doll's hair.

CLOTHING

My Twinn doll and girl clothing is unique to My Twinn and is designed by My Twinn's award-winning children's clothing designers. Do not allow wet clothing to remain on the doll, as the dyes used in the fabric sometimes transfer onto the vinyl or cloth body.

ACCESSORIES

My Twinn offers a wide range of the finest accessories to add to your playtime enjoyment and imagination, from furniture to jewelry and everything in between. We use the highest-quality craftsmanship and material in every My Twinn accessory.

REPAIRS

My Twinn dolls are made differently than any other doll in the world. Specialists at the My Twinn Doll Hospital are trained to care for your My Twinn doll. See the Doll Hospital Admissions section of this booklet if repairs or changes are needed.

POSEABLE DOLLS

My Twinn poseable dolls are great fun. The unique patented poseability system provides many different poses, but rapid and repeated bending can cause or accentuate a squeaking noise.
